Captain Frank Malinak once said, "We want to be at least as well armed as some of the crooks are out there." Ranger technology today includes advances such as a mobile command center. The 63-foot command center has been used on the Border and is capable of coordinating Texas DPS and Texas Ranger activities in a wide area with conventional radio and satellite feeds.

The Texas Ranger Hall of Fame and Museum also takes pride in using the latest cutting edge technology for tourist attractions. **Chief Hank Whitman, Jr. Flight Helmet**

In order to better serve and protect Texas and U.S. citizens along the Mexico-Texas border, State and Federal Agencies such as the Texas Rangers, Texas DPS Aircraft Section and the U.S. Border Patrol collaborate constantly on joint initiatives.

Texas Ranger Chief Hank Whitman, Jr. has been crucial to these endeavors. Due to Chief Whitman's efforts in the Texas Ranger Reconnaissance Program, as well as border security, the Texas DPS Aircraft pilots presented the Chief with a customized flight helmet. Chief Whitman donated the customized flight helmet to the People of Texas through the Texas Ranger Hall of Fame. We thank Chief Whitman for this gift and for his service to the state of Texas.

**Groundbreaking on July 6th**

On Friday, July 6th, the Texas Department of Transportation (TxDOT) will host a groundbreaking for the Brazos River bridges project. TxDOT will connect the access road in front of the Museum to the access road on the other side of the Brazos River with spans reminiscent of the 1869 Waco Suspension Bridge.

After Hours is a monthly networking opportunity for community leaders. We are grateful to Texas First State Bank for selecting Knox Center as the location for the Business After Hours.

Winner of Best in Tourist Attractions and Best in Reception/Event Facilities

The groundbreaking will take place at 10:00 am at the southwest corner of the intersection of I-35 and the Brazos River in Waco, on the southbound side of I-35, in the city parking lot (formerly parking for the Brazos Belle riverboat).

Construction is scheduled to start the week of July 9th. We will keep you informed of construction impacts to the Museum.

#### About I-35 Construction

I-35 Main Street Texas has, through the years, been a preferred route for millions of Texas drivers. Between 54,000 and 95,000 vehicles a day travel I-35 in the vicinity of the Texas Ranger Hall of Fame.

To maintain corridor reliability, TxDOT is spending \$1.9 billion to expand I-35 from four to six lanes from San Antonio to the Fort Worth-Dallas "Y" north of Hillsboro. The expansion project is unprecedented with more acreage under construction at one time on one highway than at any other time in the Texas transportation history. More than ninety miles of that project is in the Waco District.
